Description

EN

The Nimbus Commuter 11 (C11) X-Edition is a high-performance, all-weather commuter with luxurious detailing and exceptional capability - plus a saving of almost £15,000 on the RRP. Fitted with twin Mercury Verado V10-400 outboards in Cold Fusion White and the Mercury Joystick upgrade, the C11 offers smooth power, intuitive handling, and responsive performance. This X-Edition model features exclusive upholstery, graphics, and detailing throughout, making it as stylish as it is functional. Designed for extended voyages, weekend getaways, or the daily run, the C11 combines speed, comfort, and Scandinavian design in one remarkable package. This 2025 model Nimbus Commuter 11 is on order with the factory but changes can still be made to the specification. Note - library photos may not reflect specification of boat.

Cabin: Inside, the C11 boasts a Nordic oak interior with full X-Edition treatment - including dark grey cabin cushions, matching saloon suspension seat cushions, and premium carpets throughout. The deckhouse features curtains, extra portlights, and a bed arrangement for overnight stays, all in a clean, modern design. The galley is well equipped with a 65L fridge, cold water supply, and gas cooktop (LPG), while Nimbus crockery and cutlery are included as standard.

Cockpit: The helm is fitted with twin Simrad NSX 12" plotters and a Simrad xSonic SS60 thru-hull sonar transducer for confident navigation in all conditions. A Simrad RS40 VHF with AIS receiver and antenna provides reliable communication and situational awareness. The dashboard and steering wheel are wrapped in dark grey suede, part of the X-Edition detailing, and supported by the intuitive Mercury joystick control system with autopilot and Skyhook functionality.

Electronics: The C11 includes a Chargemaster 12/50A shore power system with 230V outlets and a 25m cable. A high-end JL Audio hifi package delivers immersive sound through six premium speakers across the cockpit, aft deck, and foredeck, with a powerful amplifier and subwoofer. The Nimbus Connect system enables smart remote management of onboard systems. For comfort in all seasons, the Isotherm 40L diesel heater, defroster, and hot water system provide warmth and utility throughout.

Machinery: Powered by twin Mercury Verado V10-400 XXL outboards, this C11 delivers powerful, controlled cruising with Mercury's joystick control, VesselView 403, Active Trim, and additional upgrades including VesselView Mobile and First Mate with extra fob. Handling is optimised by the Zipwake 400E dynamic trim control system and a Quick bow thruster, while antifouling protection is provided by black Hempel Mille Xtra. A black-water overboard discharge system is also fitted for extended trips.
