Beschreibung

Build number 142, Hull no. 1 under construction, to be delivered in 2025.

Slot available for immediate construction.

Omega 78 - A Masterclass in Long-Range Luxury Yachting

Built by Pacific Shipyards in the Netherlands, the Omega 78 is a standout in the world of luxury yachts, boasting an impressive 23.58 meters in length, a beam of 6.96 meters, and a tonnage of 102 tons. This yacht, with a range of 5,000 nautical miles, is designed for the ultimate long-range cruising experience.

As the first full tri-deck yacht in its size range, the Omega 78 offers ample living and entertaining space. The upper deck houses a spacious wheelhouse, complete with captain's quarters and a day office, while the expansive fly deck features a U-shaped bar with a grill, icemaker, fridges, sinks, and generous storage—perfect for entertaining. A 4-meter tender and tender crane ensure adventure is always within reach. The yacht's main salon exudes opulence, with elegant finishes and spacious living areas. Moving forward, you'll find a large, luxurious galley on the port side and a comfortable dinette to starboard, perfect for intimate meals or casual dining. Adjacent to this is the crew quarters, featuring direct access to both the wheelhouse and the deck, along with a day head for convenience. In the bow lies the ultra-luxurious guest cabin, complete with an en-suite bathroom, ensuring your guests experience the utmost in comfort and privacy.

Every inch of the Omega 78 is crafted from the finest materials, including Alcantara, American walnut wood, and plush hotel-grade carpets. The lower deck houses the magnificent full-beam owner's stateroom, complete with an open bathroom concept, including a striking open bathtub. A corridor from the laundry room leads to the VIP guest cabin, also fitted with its own en-suite bathroom.

At the bow, the lowest level features a technical room, home to the yacht's sophisticated installations. The stern opens hydraulically, revealing a spacious garage that leads to the sophisticated engine room, outfitted for long-range cruising and powered by twin John Deere engines, ensuring performance and reliability.

With its thoughtful design and lavish features, the Omega 78 redefines what it means to cruise in luxury and style.

Key Features of Pacific Yachts:

1. Fully Custom Design:

- Pacific Yachts are renowned for their bespoke designs, meaning each yacht is built to the owner's exact specifications. Clients work closely with

designers and engineers to ensure every detail matches their vision, from the layout to the materials used.

2. Premium Materials and Craftsmanship:

- Only the highest quality materials are used in the construction of Pacific Yachts. This includes premium woods, metals, and state-of-the-art technology. The craftsmanship involved is meticulous, ensuring durability, elegance, and comfort.

3. Standard Packed with Options:

- Despite being custom-built, Pacific Yachts come "standard-packed" with a wide array of features. These include advanced navigation systems, high-end entertainment setups, luxurious interiors, and often various water toys such as jet skis, tenders, and diving equipment.

4. Cutting-Edge Technology:

- Pacific Yachts are equipped with the latest in maritime technology, including stabilizers for smoother cruising, advanced navigation and communication systems, and energy-efficient engines to optimize performance and reduce environmental impact.

5. Luxury Interiors:

- The interior designs are often modern and luxurious, with custom furniture, top-tier appliances, and a wide variety of finishes and textures. Yachts can include features such as spacious staterooms, lounges, dining areas and even onboard gyms or spas.

6. Range of Sizes:

- Pacific Yachts offers a wide range of yacht sizes, from smaller, more nimble yachts to large superyachts capable of accommodating large parties and hosting long-range ocean cruises.

7. Innovative Exterior Designs:

- The exteriors of Pacific Yachts are sleek, modern, and designed for performance. Many yachts feature large deck spaces for sunbathing, dining, and relaxing, along with swimming platforms and sometimes beach clubs at the stern.

Customization Examples:

- Layout Changes: Clients can customize the number of cabins, living spaces, and crew quarters.

- Personalized Styling: Materials, colours, and overall aesthetics can be tailored to fit the client's style preferences.

- Advanced Features: Options for hybrid systems, custom lighting setups, or enhanced sound systems.
